

Homework for Next Lecture

1/ Develop your 2D composition on an A3 paper and **use collage for adding color.**

For Example: as the right image.

- You can use any color for the base paper not only white.
- Please write the principles you have used in the composition.
- Please work on the critiques you have been given in the previous lecture by your lecturers.

Homework for Next Lecture

2/ Create a **3D mass model (simple model)** for your 2D composition using (white Flin).

- Do not add color, make sure everything is white except the base Of the composition.
- Size of the 3D is also the same size of the 2D composition which is the size of an A3 Flin.
- For Example: as the right image. →
